

Internet Truckstop® teams with Registry Monitoring Insurance Service (RMIS) to provide insurance monitoring to the transportation industry.

NEW PLYMOUTH, Idaho--([BUSINESS WIRE](#))--Internet Truckstop, the largest Internet-based freight matching service in the transportation industry, announced today they are teaming with Registry Monitoring Insurance Service-RMIS to provide tracking and insurance monitoring services to the transportation industry.

Started over 15 years ago and based in Westlake Village, California, RMIS is the leading provider of tracking and reporting of carrier certificates of insurance for the transportation industry. With over 100,000 carriers in their database RMIS provides freight broker, freight forwarders and manufactures timely information on carrier insurance policies.

“RMIS is a company with a proven record in delivering quality service to the industry and we are very pleased to be working with them to bring a package of new services to our members.” says, Internet Truckstop, CEO, Scott Moscrip.

July 18th Internet Truckstop is rolling out a product offering called “CACCI” that includes insurance monitoring. The CACCI decision support tool will include Carrier Performance Reporting (CPR), Authority history, CSA and score analysis, Carrier Directory, Insurance Monitoring and tracking.

“Internet Truckstop is committed to delivering quality products to the transportation industry and we are happy to be working with them to provide the insurance monitoring solution that is in such high demand from the transportation industry,” says Hayden Landon, President, RMIS.

For more information about CACCI visit truckstop.com and click on product offerings.

About Internet Truckstop

Founded in 1995, Internet Truckstop is the FIRST and LARGEST freight matching service on the web. Internet Truckstop offers more tools than any other freight matching service available. These easy to use tools, one of the largest freight databases, and a commitment to the transportation industry make Internet Truckstop the leader in Internet freight matching.
